Windows
Basic Linux/command-line
knowledge

Vivek Kaklotar

Professional Summary:

Student of CSE-AIML | Electrical Engineer | Innovator |
Problem Solver

Computer Science and Artificial Intelligence & Machine Learning student with hands-on experience in backend development, Python, Django, Machine Learning, and web technologies. Currently working as a Backend Development Intern at TOPS Technologies, gaining practical experience in developing and maintaining backend applications. Experienced in building AI-based and software projects, with strong problem-solving, analytical thinking, teamwork, and communication skills. Passionate about learning new technologies and developing practical, scalable solutions.

Professional Experience

Electrical Engineer

Sarin Technology | [August-2022] – [July/2024] (2 Years)

- Provided technical support and maintenance for high-precision equipment.
- Troubleshoot and resolved issues to ensure system efficiency.
- Communicated complex concepts clearly to clients and teams.
- Adapted to new technologies and improved operational workflows.
- Proficient in EPLAN for electrical design and documentation.

Professional Skills

Problem Solving
Debugging & Troubleshooting
Project Planning
Team Collaboration
Technical Research
Learning New Technologies
Communication
Time Management

Languages

English (Professional Working)
Hindi (Native or Bilingual)
Gujarati (Native or Bilingual)

Education

Shree Dhanvantary College of engineering and technology

Bachelor of Engineering - Artificial Intelligence and machine learning

Gujarat Technological University (GTU)

(July 2024) Currently Pursuing | Expected Graduation: 2027

Current SPI: 8.7

Gujarat Technological University (GTU)

Diploma of Education, Electrical Engineering Technologies

(August 2019 - October 2022)

SPI: 8.8

L. P. SAVANI INTERNATIONAL SCHOOL

10th · (January 2018 - March 2019)
